SKILLS

I have fundamental knowledge in following technologies:

- Programming languages: Go (backend, cli), JavaScript/TypeScript (frontend, backend), Python (data science)
- Front-end libraries: Vue (Nuxt), Astro
- Back-end libraries: Fastify (Node)
- Databases: PostgreSQL, Redis, MongoDB
- Cloud providers: Amazon AWS, DigitalOcean /cloud providers
- Tooling: Docker, Task, Caddy
- OS: Windows Server, Ubuntu Server, Arch Linux
- Online marketing: Google Analytics, Ads & Search Console

INTERESTS

I am most interested in the anything related to web technologies - websites, web applications & cloud. There is something inherently fascinating about code being live, available on the internet and potentially used by millions.

- Web2 & Web3 technologies, cloud computing
- Web design, UI/UX
- Esports, competitive gaming
- Music discovery, audio equipment, audio processing
